Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Final Rejection

The Status of Claims:

Claims 39-54 are pending.

Claims 39-54 are rejected.

Claim Rejections - 35 USC § 112

Applicants' argument filed 12/03/08 have been fully considered but are not persuasive.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The rejection of Claims 39-54 under 35 U.S.C. 112, first paragraph, has been withdrawn due to the modification of claims. However, the rejection of 39,43-53 under 35 U.S.C. 112, first paragraph based on the scope of enablement of the starting materials for the hydrogenation process, has been maintained due to applicants' failure to modify the claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1625

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

In view of the revised claims in the amendment, the following rejected is applied.

Claims 39-54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 39, 40, 42, 50, and 54, the terms “containing”, “include”, “derivative” are recited. Each of these is vague and indefinite because the specification does not elaborate what is meant by the term “derivatives”; and the terms of “include” and “containing” would mean that there are some additional components besides the only compounds; the skilled artisan in the art is unable to figure out what else are present in the compounds.

Therefore, an appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of Claims 39-54 under 35 U.S.C. 103(a) as being unpatentable over Brunner et al (US 6,284,917) in view of Sugier et al (US 3,761,428) and Scott (US 2,889,287) has been withdrawn due to the modification of the claims in the amendment.

Applicants' Argument

Applicants argue the following issues:

- a. The rejection of Claims 39-54 under 35 U.S.C. 103(a) based on Brunner et al (US 6,284,917) in view of Sugier et al (US 3,761,428) and Scott (US 2,889,287) can be overcome by reciting a limitation that the partial decomposition is required to be such that the complex exhibits an infra-red vibration band between 2100 and 2200 cm^{-1} .

Applicants' arguments have been noted, the examiner agrees.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1625

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
